DEBUGGING OF NOTE TAKING APPLICATION

Kindly refactor the code and try to make sure the application works properly.

A.[FIXED] POST method is used in 'app.py' while in 'home.html' using the GET method.

B.[FIXED] When we press the 'Add Note' button it will add empty notes every time.

C.[Renamed] title of 'home.html' from 'Document' to 'Notes'.

| Enter a note | Add Note |

- buy milk
- pay electricity bill
- complete flask task
